

**REMARKS**

Applicants provide herewith a complete set of replacement drawings in compliance with 37 C.F.R. §§ 1.84 and 1.121. Please replace the entire set of drawings filed with the application on August 28, 2001 with the replacement drawings provided herewith. The replacement drawings are higher quality copies and provide appropriate margins according to 37 CFR §1.84(g).

Some drawing comprise amendments. Specifically, drawing 1B was amended to remove reference to a part "1C." The part previously labeled as 1C is part of drawing 1B. Drawings 6, 12A, 13A, 14-16, 19-21 and 23 show sequences and have been amended to add sequence identifiers. Neither these amendments nor any of the other replacement drawings contain new matter.

Applicants submit the present Amendment to provide, as a separate part of the disclosure, a "Sequence Listing" pursuant to 37 C.F.R. §§ 1.821-1.825. Applicants submit herewith a substitute Sequence Listing in paper copy that begins on page 1 and ends on page 96, to replace the paper copy filed on August 28, 2001. Submitted herewith is also a Request Under 37 C.F.R. § 1.821(e) to Use Computer Readable Form From Another Application. The paper copy of the "Sequence Listing" provided herewith is identical to the computer readable copy filed for Application Serial No. 09/941,193, filed 8/28/2001, and includes no new matter.

The Office has noted that page 399 is missing from the application as filed. Applicants herein amend the present specification to renumber the pages from 396-398 and 400-401 as consecutive pages 306-310, and Abstract page as page 311. These changes reflect the omission of Page 399 and the renumbering of the Sequence listing to a separate set of pages 1-96.

Applicants respectfully request entry of this Preliminary Amendment prior to examination of the present application.

Date: August 19, 2005
